

Nasif Sajjad

Full-Stack AI Developer | Seeking Technical Internships 2026

Bahrain | +973 66388203 | sajjadbd.nasif@gmail.com | nasif.xyz | linkedin.com/in/nasif-sajjad | github.com/nasifsajjad

SUMMARY

17-year-old full-stack AI developer with hands-on experience deploying RAG architectures and LLM applications. Skilled in modern web frameworks, AI-augmented workflows, and client management. Seeking a technical internship to deliver immediate value.

SKILLS

AI & LLMs: Claude/Anthropic API, Google Gemini, RAG Architecture, Voyage AI Embeddings, Prompt Engineering

Frontend: React 18, Next.js, Tailwind CSS, Framer Motion

Backend & Database: Node.js, Express, PostgreSQL, Supabase, REST APIs, Server-Side Caching

Languages & Tools: Python, TypeScript, JavaScript, SQL, Git, GitHub Actions (CI/CD), Vercel, Google OAuth, Row Level Security (RLS)

Spoken Languages: English (Fluent), Bangla (Native), Hindi (Conversational), Arabic (Basic)

EXPERIENCE

Creative & Technical Design Lead

Feb 2026 – Present

Tetris Fabrication · Freelance

Bahrain

- Produce 2D/3D CAD drawings for structural metal products, improving production clarity for fabrication welders.
- Design visual assets for Instagram campaigns and maintain the corporate website for inbound lead generation.

Bug Bounty Participant

Feb 2026 – Present

Google Bug Hunters & Meta · Remote

- Researched and documented logic flaws within ad-delivery frameworks of major iOS applications.
- Submitted technical vulnerability reports to Google and Meta detailing ad-bypass mechanisms in video systems.

Freelance Full-Stack Developer

Oct 2024 – Nov 2025

Independent Consultant · Bahrain

- Managed end-to-end client lifecycle for 5 local businesses, from requirement gathering to UI/UX design and deployment.
- Developed and launched 2 custom commercial websites, implementing responsive layouts and SEO optimization.
- Executed data-driven social media strategies, creating visual assets and managing accounts to improve engagement.

PROJECTS

- Daleel (daleelbh.com)** — AI RegTech platform using a custom RAG architecture paired with the Claude API and Voyage AI embeddings. Enables context-aware semantic retrieval across government frameworks, delivering fully-cited compliance answers.
- Thrift Trip (thrifttrip.vercel.app)** — AI travel assistant powered by Google Gemini to analyze flight/hotel costs across 30+ locations. Implemented offline autocomplete for 90+ airports with sub-150ms search response; integrated a stateless REST API with caching and CI/CD.
- Motamot (motamotbd.vercel.app)** — Civic polling platform featuring real-time voting and an admin dashboard built with Next.js SSR. Integrated live AI-powered Bengali-to-English translation and automated NLP profanity filtering.
- Forge AI [MVP in Progress]** — Autonomous B2B SaaS engine to generate optimized business storefronts and marketing material for SMEs.

LEADERSHIP & EXTRACURRICULARS

Elected Head Boy & Class Prefect

Feb 2023 – Present

Bangladesh School Bahrain

- Elected Head Boy (Feb 2026–Present) to represent the student body and liaise with senior administration.
- Served as Class Counsellor (Sep–Dec 2025) and Class Prefect (Grades 9–10), providing peer mentorship.

Founder & President – Debate Club

Sep 2025 – Present

Bangladesh School Bahrain

- Established the institution's first student-led competitive debate program; recruited and trained members in public speaking.

Co-Founder & Content Lead

Aug 2022 – Sep 2024

Easy Learning with Sadman Sir · Remote

- Co-founded a digital educational content channel serving STEM students across Bangladesh; directed video production and curriculum design.
